2d Text Preset Pack For Animation Composer Plug In

This package is designed to use with Adobe After Effects 3.0+ and Premiere Pro CS5+. The presets are a perfect fit for any text animation project. All you need to do is import the presets into your Adobe After Effects project and then begin playing with each preset. You can try all the presets to decide which one fits your needs the best. Buyers of your projects do not need to buy anything extra to edit your project. The plug-in is not required to open and edit the file. However, we would recommended to get the plug-in, as it offers many benefits. For example the duplicating layers which have presets applied on them is hassle free, because Animation Composer automatically fixes linked expressions while the layer is duplicated (and much more). The Plug-in is packed with over 1,000 presets which you can use to make 2D vector texts and logos, and turn them into beautiful blobs of crazy bouncing crazy bouncing animations that will blow your mind. Whether it's products for print or online, use the plug-in to create and customize your text animation. Get your eyes on. The end result makes you feel like a professional Animator.
