For instance, mobile phones may be used to make payments for goods and services, such as via credit card purchases at physical retail points of sale. Mobile phones may also be used to conduct financial account management, such as to pay bills, make purchases, or transfer money from one account to another. To conduct such financial transactions, people have to carry numerous, separately used items: wallet, credit card, mobile phone, cash, checkbook and writing utensil. The turn around time for all scheduled challenges, both activations and some online challenges is one to two weeks, but that time frame is subject to change. Don't worry, IF the challenges get cancelled we will be back to schedule with October's contest run occurring on or around 8/23/15.
