

CorelDRAW.X7.1.0.572.Patch.REPT.3600 |VERIFIED|

Q: How to create a dynamic map when using createMap I am using createMap to create a map in d3.js. My data is updated regularly and I would like to be able to refresh the map but with a fixed scale and/or size of the circle. I have tried using the createMap function but as the data is updated the map will initially only contain a few markers. Is there any way of creating a map that will show the most recent set of markers?

```
map.createMap(map.getSize()); for (var i = 0; i < colors.length; i++) { var color = colors[i]; var val = data[i]; var marker = path.join(directory, color, val); var polygon = d3.geo.polygon(paths) .features(data[i]) .enter() .append("path") .attr("d", path) .style("fill", color); var circle = d3.svg.arc() .data(paths) .startAngle(function (d) { return d.x1; }) .endAngle(function (d) { return d.x2; }) .innerRadius(function (d) { return d.y; }) .outerRadius(function (d) { return d.radius; }); var svg = d3.select(marker).append("svg") .attr("width", 100) .attr("height", 100) .append("g") .attr("transform", "translate(" + size / 2 + "," + size / 2 + ")"); circle.attr("class", "marker"); svg.append("circle")
```
