What is the meaning of the extension  
' .txt'? A: It is a text file extension. A  
text file is similar to a windows word  
document, but it can store text of any  
language. You can open a text file  
using Notepad, or you can open it with  
an application which is dedicated to  
that purpose. A: It simply says that the  
file is a text file and can be opened  
with a text editor or other application  
that understands text files. Q: Adding  
new images in file which is already  
exisiting I am creating an application in  
which users can add images to a mysql  
table. Problem is: while the user is

---

adding the image I want to show him a preview of the image to add in case there are no images in the table. This is my code for adding the image:
