Norsca is being overtaken by the invading Elden hordes. Thousands of soldiers from all over the Lands Between are marching toward the ancestral homelands of the Norscan people. During the war against the Elden, you take the role of a leader of the Norse race who has lost everything. Rescued from the struggle, you are thrust into a new world: the war-torn Lands Between. There, you are given command of a remnant Norse army as they attempt to fight back against the invading Elden hordes.

Your goal is to lead the people you have left to the ancestral homelands. The story will follow your fate as you fight to reclaim your home from the invading Elden. ABOUT ELDEN RISING Fight the Elden horde single-player in the beginning of the saga. Elden Rising takes place 1 year after the Norscan people were vanquished by the invading Elden. You must help the Norscan people to rebuild their nation. After learning that the invading Elden are heading for the ancestral homelands of the Norscan people, you are given command of a remnant Norse army as they attempt to fight back against the invading Elden. Ascend to the peak of the highlands. Pursue peace and order in the western districts. Reclaim the ancestral homelands of the Norscan people. Fight the invading Elden horde in the game's single-player campaign, and in multiplayer, and unite the various factions in order to win the Norsca war. How to Play It is possible to play the game in 2 ways: normal or free mode. Gameplay Modes • Normal Mode: The basic version of the game that you can play in your everyday life. There are no character creation options or tutorial, but the game helps you unlock all the items, abilities, and items. When you leave free mode and enter normal mode, you'll obtain a game configuration window that you can change (rank, items, abilities, etc). • Free Mode: This mode is exactly the same as the normal mode, except it can be used with no items or abilities. Quick Tips •

---

Always store items at your base camp to be able to equip them during combat. • It is always necessary to assign a mount with the GM, as it helps you much when traveling. Once your mount

## **Features Key:**

- Type-driven, text-based adventure RPG
- Intelligent character development mechanics
- Multiple paths: story or combat
- Fantastic world with one of the largest battle maps in a graphical RPG
- An epic duel: easy to start easy to win or difficult to lose
- Simple possession: acquire relevant items with ease
- Upgraded inventory: equip the items you want

## **Why should I play Elden Ring:**

### **Let's see what they have to say:**

- Square Enix Official Website
- Eurogamer's review of the game
- Kotaku Australia's review of the game
- Chudotv's opinion

**Hannu Takka:** "I've been playing RPGs for so long that I feel the game will shock players. Elder Scrolls Online and Final Fantasy XIV are magnificent titles, but their playerbase is limited to a few people. So far, they have already attracted a niche; I wanted to create such a game for this present and future. I put a lot of thought into the combat."

"Wakfu is a tiny digital island, which is a place of immense size. There are mountains and valleys, enormous monsters, and the vast number of features that players demand. It was time to create a whole new world."

## **What's new in Elden Ring:**

**This game was forged from the dreams of the talented creators of Dengeki Bunko: Powerful Magia on "Altair," and is a masterpiece of collaboration that seamlessly draws upon the unique appeal of each game. With the circumstances and situation of Hoshimusume which arose from the collaboration, the game gained a completely new premise.**

**The Large and Prospective World of the Forsaken Territories is an RPG genre fantasy world with a grand scale in which there is a vast - full of excitement - land of open fields, which seems boring, but in fact is a domain filled with all kinds of dreadful monsters. But to uncover the secrets of the new fantasy world is a life of danger and peril, the battlefield will test your strength and endurance to endure various situations and the like. In addition, the new fantasy world of Openfields has a high-definition and is filled with various elements of unparalleled variety from giant shields to a class that summons a dragon. And thanks to the animations that surpass the realistic degrees, the atmosphere has never been so immersive.**

**Features, graphics, and sound of the Gifusetsu Hoshimusume collaboration, which was cut to the depth of the image.**

### **● Features and Gameplay**

**■ The Historiographic engine in which the game world is recreated.**

**With various design solutions by Yamada and Yamada including the content of the open fields and variations in the design, there are about 8000 square kilometers of lands in the Forgotten Territories map, which is twice as large as the previous game version. Also, the seamless transition between the open fields changes in part-time to leave behind a strong sense of mystery. In addition, the maps are very detailed, so monsters and monsters are lined up in formations. In addition, various monsters have their own strong point. ■ Character Design Since Before**

**Supports the character of all the items that came in the game free of charge such as from the first game. Characters are of no particular body part, but as your own character, you can freely**

---

**create a character with the feel of your own characteristics and personality. And power, magic, and the sense of adventure are increased. In addition, since the scan data is used for modification, you can freely do mods in the game. ■ Character Control**

**The real-time action RPG**
