This innovative technology provides an unprecedented level of data to provide players with accurate and highly responsive on-screen action when controlling their players. For those who want to see this technology in action, FIFA Producer for FIFA and Main Series Daniel Raiberti has provided a glimpse into the world of “HyperMotion Technology” in the following video: FIFA The Official Magazine will be launching FIFA’s Fifa 22 Cracked Accounts cover on Thursday, September 21, and to celebrate, we are very excited to share our first look at the cover, which features Diego Maradona. This is the first time that Maradona’s likeness will feature on the cover of FIFA since he was inducted into the FIFA 100 and the magazine will be featuring Maradona’s career throughout the year in FIFA The Official Magazine. “Diego Maradona is a player, who transcends football and is revered not only by his fans, but by football fans across the world,” said FIFA Vice President of FIFA Brand and Marketing Daniel Raiberti. “We are excited to have such a dynamic player be the cover model for our FIFA 22 and feature him in the digital edition of FIFA The Official Magazine.” As a player, Maradona moved soccer from its grassroots level to the highest level of international competition, helping to propel the sport to new heights on a global scale. As a player and manager, he won two World Cups, three Copa Americas, two European Championships, and two Golden Balls. Through his coaching, he influenced the future of soccer in a major way, by introducing the “total football” concept. In addition, he also became an honorary member of the FIFA Executive Committee, where he would assist other committee members in the political and social development of soccer. Maradona is arguably one of the greatest players in the history of soccer and one of the most charismatic and recognizable figures in sports. When FIFA was brandishing the FIFA 100, Maradona was featured on the cover as one of the greatest footballers of all time. While Maradona’s inclusion on the cover of FIFA The Official Magazine will be the first time he’s appeared on the cover of the magazine, the partnership between FIFA and Maradona is far from new and is a great representation of how Maradona has shaped soccer throughout his career. The digital edition of FIFA The Official Magazine will feature Maradona along with
