Compete against other players in FUT matches and battle for victories on the global leaderboards. Use cards, coins, packs, and more to boost your FIFA Ultimate Team (FUT) and build your dream squad. Construct your Ultimate Team from over 70 playable leagues and more than 10,000 players. Gameplay Features Player Impact Engine (PIE) – FIFA 22 is the first FIFA title to use the Player Impact Engine (PIE). The PIE is a unique AI engine that allows real-world movement and attributes to be applied to video game players. In FIFA 22, the PIE will intelligently react to the environment, so defenders will not simply run up and down the field like in previous versions of FIFA. PIE features such as taking players on from behind, tripping, and swerving will be added to FIFA 22 to add a new dimension to gameplay. New dribbling animation that more accurately replicates real-world movement Player tracking that reduces the impact of contact Dynamic drop-off behaviors for midfielders and wingers Dynamic player positioning that adapts to the formation and tactics of each opposition team Movement AI that improves the way players interact with one another Player movement that is dynamic and keeps track of players in space New approaches to passing and ball control New energy system for players that influences their natural performance Dynamic goalkeepers that intelligently make goalkeeping decisions and react to changes on the pitch New defensive AI that defends as a team and varies their defensive duties based on the team's shape Improved forwards and defense transition, including a new slide tackle animation that more accurately replicates real-world movements New video replay system that allows closer observation of replays Updated collision handling High-res goal celebrations New player and crowd reactions that more accurately match real-world behaviour Improved crowd chants and crowd celebrations FIFA World Cup and FIFA Confederations Cup There are 12 World Cup and 12 Confederations Cup teams to choose from, including England, France, Portugal, and Germany. FIFA World Cup 2018 Russia Brazil is the host nation and great advances have been made to the stadiums, coaches, and uniforms that will be used in this year's World Cup. The Russian Federation will host the FIFA World Cup and Russia 2018 will be the first World Cup held on home soil. Approximately 10 stadiums will be used in the tournament, including three new venues

**System Requirements For Fifa 22:**

Ample power for your CPU Room for a TV and a game Peripherals Until now, there were few options for horror games. The limited control options of current generation consoles made large rooms, dark hallways, and general room-based scares pretty much impossible. Either you were stuck with tight corridors that snaked around and scared you from behind or you were forced to pick up your Switch and hide behind a couch. One of the biggest strides in horror development was the digital distribution model: Steam, Xbox Live, and now Nintendo Switch Online.
