Supports a standard size paper of portrait or landscape and a landscape orientation. Images in portrait mode must be resized in width to fit a standard width paper in landscape. This table sets the maximum size of the file in pixels. Default size is set to 1200 x 900 pixels. -[Icons] are included. -[Providers] are not supported. Limitations: Images must be in the formats JPEG, BMP, GIF, PNG and TIFF. This app does not support graphic files on the web. Needs support for modified file format.(Thanks to the feedback of user "MarkusH.) Buy Premium Download files at No Risk Rapidgator (Rapidgator.com) Bauer Media Foto-Mosaik-Edda Standard is a user-friendly application that can help you show off your images in an innovative manner: generating mosaics. Step by step intuitive approach Meant to be used by novices as well as experts, the interface of this utility is intuitive and neatly organized. The only way to move on to the next step is to correctly complete the data in the current stage. You need to start by creating a database where all your favorite graphic files are added (unfortunately, you can only use pics from your computer, as online sources are not supported). It is best to add as many items as possible, to ensure no errors are triggered once you start generating the mosaic. As soon as this database is created, you do not need to repeat this step unless you want to add new files to the mix. Foto-Mosaik-Edda Standard also allows you to create multiple collections, then use the one you prefer when you start creating the mosaic. Supports multiple types of mosaics When it comes to selecting the type of mosaic you want to create, you can choose between classic style, parquet style, chaos style or detail style. No matter which one you prefer, you need to select the theme picture (JPEG, BMP, GIF, PNG or TIFF) that will be transformed into the actual mosaic. At this point, you can customize several parameters, such as image orientation, paper
