When you select an image that is in the Computer screen, a dialogue box appears, as shown on the left in Figure 5-2. If you want to use the image that is already on your computer or that you place on your monitor, open the image and select the Picture Tool from the Tools panel. The tools in the image window are covered in Chapter 2. FIGURE 5-2: Select the

Q: Is it possible for a corp
to get a set of the newer A-
bombs for Titanfall 2? I'm
only just learning some of the
mechanics of the multiplayer
side of Titanfall 2, and the

last mission I did had some issues with the A-bombs. I only have the very basic one in my arsenal, so I think I might have encountered a problem with this one. I'm wondering if someone can shed some light on this for me. Does the crafting system allow a corp to get the newer A-bombs for Titanfall 2? A: No, the A-bomb is not on the list of weapons that have been made available to fulfill the crafting requirements. The weapons you currently have are, in order of increasing rarity: Pipegun Magnum Light Pistol Sniper Rifle A-bomb For
