The Nature of Defeat By John R. Emshwiller

In a recent short essay describing

---

his new book, published in a small New York City bookshop called the Dragon's Gate Press, the Rev. John R. Emshwiller quotes an old Maoist aphorism: "Ideas have power." The usual practice for conservatives is to slap down this "red-baiting" claim, even though Maoists have adopted it as a consistent canon for their ideology. I don't know why they do so, because they have no idea what Mao was saying. If you think about it, the statement is a perfect description of how Christianity operates. It is a thing of power. And the ability to change the ideas

---

is equally important. I came across this piece in the most recent *The Catholic Thing*. The quote, which was rendered as it appears in the essay, is from a speech by Mao Zedong in December of 1949, known in the United States as the Wuhan Speech, on the occasion of the founding of the Chinese Communist Party. The speech has been studied extensively by both Communists and anti-Communists, and is now widely regarded as an important historical document because of the major breakthroughs that it made. Mao was speaking to more than ten

---

thousand delegates at Wuhan University, and, one may safely assume, not even to one of the Wuhan delegates. At any rate, he was addressing a subject that no one there wanted to hear about, and he was speaking to a captive audience. He had been invited by Wang Ming, who had just taken over the university

Microsoft.NET framework is needed on the target computer in order to make use of the program's conversion capabilities and avoid bumping into all sorts of errors or bugs. Minimalist design The installation process is fast and simple so you can get access to the tool's GUI in a short amount of time. You cannot appeal to a help manual. However, you can easily get an idea about the utility works thanks to its intuitive set of options. Videos can be imported in the working environment using the

---

built-in browse button (the drag-and-drop support is not implemented). Clips cannot be previewed in the main window because there's no support for an integrated media player. Video conversion capabilities Free Video To Mp4 Converter offers you the possibility to select the clip that you want to process. The conversion process can be completed by specifying the filename and saving directory. In addition, you are allowed to open the folder where the converted videos are stored directly from the primary pane. The application does

---

not offer support for batch actions so you cannot process multiple videos at the same time. The status of the conversion job is revealed in the main window (complete or unsuccessful). Tests have shown that Free Video To Mp4 Converter carries out a task quickly and without errors. It offers very good output quality. It does not eat up a lot of CPU and memory resources so the overall performance of the computer is not hampered. The conversion process can be stopped anytime in case you think it takes too much time. Final observations

To sum things up, Free Video To

My sweetie his a thief and the only thing I dont have is a video to mp4 converter. Is there one that is compatable with windows 7  
TheGeslachtsderOfLust is a sweetie? What a loser, is he? Just make use of free software, like Virtual Dub, that can make video playback under Windows 7. Virtual Dub, included with Windows Vista, is the de facto standard video editing software (codec supported is H264, MPEG-4, Xvid, DivX, Matroska and VP6). You can download it for free here. The

---

process is simple. Download, install, configure and you are good to go. Videos can be imported using the built-in VLC media player, that you can obtain here for free. I have the free version of virtual dub to convert a video i have made but i can view it only in xbox media player. Is there something i can do to view it on my computer? No, Virtual Dub doesn't work with the xbox's media player. That's why you need to convert your videos using a different software (for example, the one we discussed above) or, even better, grab a proper copy of Windows 7
