(Ninja) By Dopefish Watch 26 Favourites 3 Comments 1K Views Here we go! This is a new costume for DOA6, and is inspired heavily from the DOA5 parody of the Japanese movie The Raid 2: Holy Diver. The Nyotengu costume features a full bodysuit armor with a faceplate. The faceplate serves as the helmet, covering the ninja maiden's face and thus making her look quite eerie. The suit also features mesh tracers on the arms and legs, and webbed hands. The costume also features a mask for the face that covers the girl's face, for her ninja heritage. She also has a swiss-army-knife for her right hand, with her teeth on the side of her mask. Her nails are painted pink for a dramatic effect. The custom does not have any special details to it, so it is a fairly straightforward costume. So, no special techniques or skills needed. I hope you enjoy her.
