LivaX is an excellent application that lets you enjoy a rich multimedia experience on your computer. It is particularly useful to those with

disabilities that prevent them from using their standard multimedia player, or those that just want a different set of features. The software consists of a rich library of options with which you can enjoy music, videos, and other audio files. Playback operations are easy to handle, thanks to a custom-made graphical user interface and hotkeys.

Display: The application uses a customizable interface. It's easy to navigate, but you can go as deep as you like into its more extensive options.

File support: The application supports a huge list of formats, including MOD, S3M, IT, MTM, XM, MO3, OGG, FLAC, and many others. The support of these formats makes it an ideal solution for anyone who

wants to enjoy several types of audio files. Playback options: The application's library is extensive, allowing you to enjoy many different types of audio files. It offers playlist management options and player controls, supports a loop and shuffle option, offers equalizer settings, and includes a hotkey mechanism. Configuration options: The application also

offers a number of configuration settings, which you can either access from its various tabs, or by means of the available hotkey.

Design: The design is solid and very practical, making it easy to handle the various options and controls. **System requirements:** The software is compatible with Microsoft Windows 7, Windows 8, Windows 8.1, Windows 10,

Windows Server 2008, and
Windows Server 2008 R2.

The application supports the following languages: English, French, German, Spanish, Italian, Portuguese, Russian, and Turkish. How to install and uninstall: The software installs seamlessly and can be uninstalled with the help of the Control Panel.

Previous versions: The previous version of the

software was LivaX Music Player.
