Frequently Asked Questions:

Q. I downloaded your software and can't open it. **A.** MessageBox Wizard is an executable file and thus is self-extracting. Double-click on the file to extract the file, then double-click again to run the program.

Q. How can I save my program? **A.** The software is easy to save, as it has a separate program that saves your message boxes, as well as a message box file (.msgbox). Simply save the program to a location on your computer, and then save the program again. Once you have saved the program, you can also save a message box file (.msgbox) which can then be opened and run in any program.

Q. My program has come up with a Compile error. What do I do? **A.** Make sure that the program is in the same folder as the.msgbox files, and that the.msgbox files have not been changed. To resolve this error, double-click on the.msgbox file to open it. Then double-click on the source code to edit the code. Click on the Compile button to compile it. Once compiled, double-click on the.msgbox file to open and run it.

Q. How do I run a message box file
