All of this without ever leaving WooCommerce. No coding is required. It's truly a plug and play plugin. Learn more about it here. WooCommerce One Page Navigation System is an easy-to-use plugin that allows you to create a fully responsive WooCommerce homepage. The plugin consists of a single WooCommerce layout page that will replace the current WooCommerce homepage (where you currently see your product pages, homepage, etc.). There's also a new side menu that will replace your current header navigation. You can change the default menu position, color, and text via custom options. You can have the side menu appear both on the left and right side of the page or only on the right side. It's also possible to display the menu on top of or below your content. The plugin also comes with more than 40 homepage skins. If you want to customize your own menu, you can add the links you need into a custom dropdown menu. WooCommerce One Page Navigation System is absolutely free and does not require any further downloads.
