There's a fair amount of game for the money. You can play the game in 1-6 player co-op, however the characters spawn as a random amount of pheromones, depending on how much you have. You are limited by the number of pheromones you have. If you're playing in co-op you must have enough pheromones to give each character some and they must have enough to get the upgrades. The characters cannot leave a room the level they're in, instead they can move to the next room, giving them, and you, access to other rooms in the

house. This can be annoying because you can be in a room with 200 or 300 pheromones and no way to open any doors to get to the room you're in. This can seriously hurt, especially when there are rooms that players can go to the next room by. Unlike other eroge games where no matter what the story mode, you have some sort of mini-game to get to next, in Project X: Love Potion Disaster you get no mini-games in the story mode. It just dumps you right into the next scene in the mode and throws you straight into it. It might take you a while to get to those mini-games, but you only get them when you unlock the story mode. Project X: Love Potion Disaster is interesting, and has a story mode, several characters, several unlockable minigames, mini-games, and modes. The characters are all drawn from other Sonic characters but all have their own look and personality and the sex scenes are extremely well animated. Project X: Love Potion Disaster is a side-scrolling beat 'em up set in the world of Sonic. Featuring characters from the franchise, the players are given a

task to fight the game's main antagonist Dr. Robotnik. The game is available to play in both full and minigames modes with the additional character. ProjectX: Love Potion Disaster is full of content like the game's movement, attack, and counter system. Players can upgrade their character by using the experience points. As well as purchase new weapons, the player can unlock charms for their characters such as the special power up. The game also supports save states with up to 3 online highscores. Additional unlockable content is also accessible to players within the game's unlockable gallery.
