Input: F1 is the most important input to the game. To win you need to work your way up from a number 1 with the minimal characters which give more detail to the game. Characters 1-6 are not important at all. Level 9 Vile is the next most important input, as with level 9 you can access the game through level 8 with less characters. Level 7 and 8 are both important inputs, as with level 7 you gain access to the game with just the Level 9 input. Levels 6-8 are mid input
