We are always more than the work we do, we are people who feel the same way. We have many different personalities and we got different characters. Sometimes we can't tell who's the closest person to us. But always close in the place where our hearts are. In the place where we feel the same thing. RONIN is the story of how we grow from friends to lovers. We can't wait to take you on a journey with us, as we seek the answers to questions like "Who am I?". This is us. RONIN is us and we are RONIN. With all of the love, Team FPP 3) Please give me as much space as you can. Bloody Horde is a Co-op Survival Horror TPS set in multiple environments. You and your friends are dropped into these locations with a simple mission: Survive endless waves of hostile zombies and other undead creatures. You have three classes, each with its own set of weapons and abilities to battle against the zombie horde. No matter what kind of beast you have to fight, you have three different ways to battle it: Swords, Bows, and Guns. Each one has a unique and powerful set of attacks. You can upgrade each weapon to make it more powerful and give you a stronger fighting chance. I have added some special rules for Online Multiplayer. I've seen people have fun just messing around as a group of friends. So, I've decided to let anyone play in the massive world of

Bloody Horde. You can play with up to four friends, and if it's not your first time, you'll have the ability to adjust levels, weapons, and items on the fly, so you never have to start over. MAIN FEATURES - CLASSES: Each character can be either a Swordsman, a Bowman, or a Gunner. A Swordsman uses a huge two-handed sword, a Bowman uses a bow, and the Gunner can use anything from a pistol to a riot gun. - SPECIAL CLASSES: You can unlock three special classes, an Engineer, an Espionage, and an Axeman. These classes add special rules to the game! - BUILDING: Buildings are like a resource in the game. They can be altered. In your missions, there will be different types of buildings. Certain buildings will need resources to build up, others will need to be built up before something else can be done. Buildings also have a special ability. If you control the building before the wave of enemies destroys it, you'll be able to use its special ability and create a turret or repair a device that can help you fight off the zombies. Buildings can not be built or destroyed outside of the mission. - SPECIAL UNITS: As a hero, you can fight with a gun, bow, or sword. But, even the weakest of weapons can be upgraded. There will be different items you can find in the environment and in enemy drops. Some can help you better defend, others allow you to put out fires, and some even allow you to kill the zombies. - USERS CONTROL: There will be several maps. They can be played single player, online, or offline. But, what's c9d1549cdd

We've all heard the horror stories about dark and dangerous people who do bad things when they are in the dark. So, when the light goes out, whether it be an accidental turn off or a halfhearted turn off, I take it as my personal warning to be safe rather than sorry. It also seems that all of the bad guys have switched over to the dark side in whatever movie or book they're reading from. Or maybe it's just movies in general that have these dark themes. Anyways, let's talk about these dark themes, which we'll represent with our creepy, scary, and spooky lists taking place around your apartment. You can decide how dark these themes can be, but with the lights off. That will be our determinant for each theme, so it's important to pitch in. If you find dark themes around your apartment, welcome aboard! No matter how dark your room may appear, there's still a way to remain safer than you would be in the dark. Let's work out where these events around your apartment might occur; from under your bed to behind the

**An Epidemic - For Nick Kane, lifelong surfer, getting caught in the crossfire while vacationing in South America is not what you would call a Day at the Beach. But the second he discovers evidence that something is amiss when he and some friends return to his hotel room and find the dead bodies of a few of his fellow surfers in his bed - he's totally going to forgo having another beer. It's the perfect ending to the day... right? Before you know it, Nick is kicking back in his motel room when he hears the loud pounding of what sounds like firecrackers outside. Straight out of the book and into the real world, Nick, Steve, Beth, and Barry move as one into an abandoned resort in the jungles of Belize where they hope to outrace and contain the undead monstrosity known as "The Zombie Apocalypse." Written by Joe Lacero, the man who was behind the viral shockwave "Chapman's Drugs", Lacero's name has become synonymous with fast-paced action, an "unputdownable" plot and freakish characters. As a direct result of his success with "Chapman's", Lacero has become known for "interesting, high-concept stories that require incredibly fast-paced plots and chapters." So fast that his books are typically unformatted and easy to read. But are they really that unreadable? Not when they're written by Joe Lacero! If you've got a friend who likes action-packed, edge-of-your-seat thrillers, this book will take you there. What you'll read and what you'll enjoy can't be predicted. Use Anatomy of a Zombie: An Epidemic by Joe Lacero (B013WOCYOC) as a guide to getting your own copy. With an action-packed story and relevant cultural themes, Anat**
