
Witcher 2 En0 W2speech

So, you've built your next homebrew game. But you still need to get the source code and make sure the game runs correctly. And that's often not easy at all. You're not alone. Many of us have played or are still playing games that were built by people who wanted to make the game, but they ran into some problems along the way. Or more often, they were never shared at all. They are hidden away on the internet, never to be seen or heard of again. But that will change with the event. With more than 80 computers and an internet connection and a shared workspace, we are going to bring those games into the world and share them with you. Make a game in ten days You'll get the whole thing. What you need to do is make a game in 10 days. That means making something that can be completed in ten days of non-stop work. It's a small window for you to make something great. And it's a challenge for you to see how far you can push your creativity. Join us, it's the first time we're doing this. There will be teams around the world, with people from Denmark, Germany, Sweden, Finland, Australia, Greece, the USA, and even France to the South of France. Step into the shoes of game devs This is a game-changing event for everyone involved. For the people who will make the games, it's great practice, setting goals, working together to get there, and to share their little project. For you as a consumer, it's time to break out of the habit of buying and downloading stuff and instead see what makes games so much fun. And it's not just about one game, but different games from many developers. So what kind of game will you make? We have a few ideas, but you can just make up some crazy ideas and share them with us. See what you've got. Game-changing event We want to make it as exciting as possible for everyone, but we need to run things a bit differently this time. The idea is to have a shared workspace where everyone can come together and interact in real time. That means that there will be a few changes to how things work. As I will be your host, I am the person who accepts all the entries. I will be the one who asks you to come into the room in 3 days and 10 days and 3e33713323
