I tried to use using system("wget logomocja-imagine. which came up as if not exist %logomocja%/Image/FPS3/Logo/Logomocja-Imagine-Download-Full-Version-48. A: You have a multiline string starting with the newline character. Read about it. A: if not exist "%logomocja%/Image/FPS3/Logo/Logomocja-Imagine-Download-Full-Version-48. Q: How to deal with first session using grunt-contrib-concat? In a gruntfile I have the following: concat: { options: { separator: " ", banner: ' v ' + ' ' }, dist: { src: ['js/.js', '!js/index.js'], dest: 'dist/.js' } } And in js/index.js: include("./"); This works fine, but what if I have some pages in my site that have to start with a request to / to load content, e.g. www.example.com/?page=home? How can I prevent grunt-concat to include that first request? Update: This made it pretty close to what I had in mind: dist: { src: ['index.html', '!index.html'], dest: 'dist/index.html' }, Then in index.html: 570a42141b
