You can manage your Character Gauge by paying attention to enemy information display in the formation screen.

The Character Gauge is extended based on your actions. Take care to not activate the character gauge too soon because the chance to earn equipment drops on rare occasions is high if you run out of the gauge.

Characters can be broken down into various types. For example, heroes combine various attributes such as their strength and talents while warriors have a well-balanced combination of attributes. Warriors act independently of the hero so they have a quick movement speed, but they lack in the ability to use magic.
