Field of the Invention This invention relates to a method and apparatus for rigidly securing an elongated steering component, such as a steering column, to a wheeled vehicle, such as an automotive vehicle. In particular, this invention relates to a method of mechanically securing an elongated steering component by frictionally engaging the steering component with the

---

wheeled vehicle and forcing the steering component to the wheeled vehicle. 2. Prior Art Statement A great deal of prior art exists relating to methods and apparatus for securely anchoring elongated steering components in predetermined positions relative to wheeled vehicles. One example of such prior art includes U.S. Pat. No. 4,557,565 to Moltz. Moltz teaches a system for anchoring a steering column to a vehicle wherein a bracket is

---

secured to the vehicle and a slip joint is attached to the steering column and engages the bracket. A bolt is inserted through an aperture in the slip joint and is frictionally engaged by threads in the slip joint. The bolt and slip joint are then turned relative to the bracket. The bolt frictionally engages the threads and applies a clamping force to the slip joint. The portion of the bolt that

You actually see these new villains now, with names like the Penguin and Deathstroke. "We're going to see a ton of big names in The Batman," Silver voices The villain known as the Riddler does not make a return appearance. The last Riddler, when

---

he was in the comics, was a fairly forgettable character. I think the writers took that into consideration, and played around with who he could be without upsetting the Batman legacy. He's mentioned, but he doesn't show up in the films. I think they probably made the wise decision. We'll see.
