System Requirements:

StarWarsBattlefront.com The Old Republic Game Launcher will not work on Mac OSX or Windows operating systems.

Installation: One of the things that has made Star Wars:

Battlefront so special to us is that it is an MMO designed for the console first mindset. EA has done the game of online shooters right for the past 15 years. Yes, consoles are far more powerful

than they were when the original Star Wars: Battlefront was released, but the game was still designed around the idea of being a console first online shooter. With
