Pix Tower was released for Android in July 2018. It was a big success on Google Play but critics and users complained about lack of speed and glitches. We are proud to announce that we finally finished the game and submitted it to Google Play. To our great surprise, it took less than 24 hours for Google to approve it. Pix Tower is available on Google Play now and it has everything what you always loved from Pixies. Enjoy. Become a Pix Tower Master and play the ULTIMATE App for Android & iOS: - The World's Fastest Pix Tower Simulator - #1 in World - #1 for Android, Google Play - #1 for IOS, AppStore - #2 for US (Country-wise) - #1 for People with - Usa, Canada, UK, Australia, New Zealand. - Paid version available from Google Play - Free version available from Google Play (A DOWNLOAD from Google Play Direct will give you 3 days AP. The download from App Store gives 7 days AP). In other words, you can download Pix Tower for FREE from Google Play and test it for 3 days or you can download for free and test it for 7 days. App Store does not support free testing. Only registered users with Google Account can download Pix Tower. Pix Tower is our first game. Before Pix Tower it was Appdesky - the fastest Pix Tower simulator ever made. We do our best to improve Pix Tower. We cannot make it the fastest. There are games like Nonsenseland, the fastest, even faster than Pix Tower. There are games like Pix Mini 3D & 3D Pix, Pix Pikman, Fast & Fun Pix Tower and many other. We are not trying to compete with them. We made Pix Tower in 2017 (before Nonsenseland). We did our best to make Pix Tower the fastest. As it turned out, Pix Tower is the fastest. Our first release (Pix Tower) was much slower than Nonsenseland. We learned and added some enhancements. To avoid the spam filter of Google Play and the App Store it is important that you do not use the keyword Pix Tower in your description. Our intention is that you can play Pix Tower for 7 days and test it. Of course, if you like it, you will test the paid version. You can delete Pix Tower easily from your home screen. But if you downloaded the app from Google Play or AppStore it will have longer installation time than on our web

Features Key:

- Infinite spawning of new wave directions.

have just over two weeks until the kickoff of Season Three. With that in mind I thought I'd look back over what came before, starting with... So, our line-up from last week: Liz, Nicholas, Charlie, Steve, Slade, Max, Robert, Jon, Shadowhunter, Alex and Jack. So, first up we have Jack with his journey on his Magic Throne. Well, we started with this... "Sounds like there's an unrest brewing in Ivalice. Heads of state have gone missing and monsters are running rampant." Jack glanced down at his glass. "This could give us something interesting to explore." "Yeah, that's not a bad idea." Liz rolled her eyes. "Alone time, however, won't allow you to do anything majorly interesting." "No, I'm sure Simon could drop a hint to the Archon or something." Jack responded. "Jack, please, I know you're upset we haven't let you in on any of these plans but -" "This time we are!" Max added. "Err... it's not like we have the time to read through it all and organize all the information and then decide what we're going to do based on that." "I'm sure there has been preparation and research. They're just hiding it from us." "Now, that sounds familiar. Whatever do you know that we don't?" "You're not going to try and tell me what you know, are you?" "Do they know the secrets of all five Mortal Instruments?" "They might." "But we don't know any of the secrets!" "We're not going to let you in on one of the biggest secrets of them all." "Well, that was a bit of a downer. I was enjoying writing about five of the world's most important mysteries and then you just burst my bubble. Yay. That's really great. Thanks for ruining the magic of it. Do we
