---

businesses need security software they can set and forget. all too often, antivirus software slows system performance or fails to catch problematic spyware infections. eset's nod32 antivirus 4 eliminates many of the headaches associated with virus and spyware protection. the award-winning application delivers proven security, uses few system resources in the process and even boasts competitive pricing. the security professionals at eset have scored a new all-star antivirus solution for pc. powered by an exclusive antivirus engine, our award-winning software delivers powerful cloud and mobile security protection with the unparalleled speed of eset smart security plus. also, eset provides advanced threat protection for mac os x, linux, android, and ios. i purchased the eset nod32 antivirus for windows, which cost \$59.99. it's installed and working fine on my windows 10 pc, but the license information does not match with the product key that i purchased. hi. i've a non-trial non-premium eset nod32 antivirus license on a windows 7 64-bit (x86-64) at home and i need to activate it. its license is removed from our work windows 10 laptop since june 14th 2019. as it worked all the time without problem (proactive and reactive), i don't know why it stopped now. the username and password don't match with the license number. i tried to look on the website but i can't find where the license is actually registered, maybe because i'm not going to recoup it. i've tried to activate the license from eset website but it gave the same error. i'm gonna ask the technician to check if

---

something's wrong in the data base. do you have any other idea on how i can solve this issue? thank you!
