What's New In?

- Music is the ultimate form of human expression. Some of the greatest works of music were not composed by the greatest composers but by kids in their basement. - Maybe one day, melodyMe will have a "child" application that will allow all of you great parents and parents-to-be to interact with and express to the world the musical genius of your children. - With that said, melodyMe is a solid, mature application with a lot of features. - All of our code is free and open source. We hope that you'll enjoy our work and would appreciate any feedback you might have. We can be found at and - On the home page, you can read the 'What's New' page, view the past 4 releases and find out how to report bugs. You can also choose your platform from a selection of other platforms that the application will run on (Windows, Linux, Mac and Android). - If you're a fan of melodyMe, make sure you like it on Facebook: - To join our development mailing list, click 'Contact Developer' on the home page. - See more at: Music is the ultimate form of human expression.
