Reservation Master Pro Crack Free [32|64bit] [Latest 2022]

Reservation Master Pro Crack+

Reservation Master Pro is a comprehensive program that enables you to easily manage your business in hotels, motels, guest houses, lodges, inns, bed

and breakfast or campgrounds. The application works as a digital front-end assistant, allowing you to book reservations, perform check-ins, monitor stays or generate invoices. Reservation view and calendar Reservation Master Pro allows you to view a dashboard of room reservations statuses, based on

occupied rooms and duration of stay. Alternatively, you can view the situation in calendar mode and quickly add, remove or edit entries. The application allows you to create both individual guest reservations, as well as group reservations for close rooms. Moreover, you can manage business details, such as contact data,

taxes, available rooms and rates, tariffs, packages, preferences, accepted payment, holiday lists and reports. Each payment method can be assigned a different color, so you can easily identify guests that have opted to pay in cash, with credit cards or those who already paid the deposit. Moreover, you can mark

returning or corporate guests, reservations made via travel agencies, as well as web reservations. Services for guests Once a guest has been added to the database, you can book a reservation, mark their stay, check them in, modify their bill in real time and generate invoices.The application features several

tabs, each for the preferred view: calendar, today's guests, arrivals, departures, occupancy, available rooms or products' list. Moreover, you can create several usernames and assign permissions to different areas of the software. You may design and generate periodical reports on guests, arrivals, house keeping,

occupancy, payments, packages or group listings. A bundle of useful features In addition to Reservation Master, Reservation Master Pro offers you the calendar view tab or the possibility of creating HTML pages displaying the occupancy dates. Moreover, you can export data to PDF, view the products in a separate

tab, monitor sales to non-staying guests or manage product inventory. You can also create a layout tab, in which to display a plan of the hotel/motel/complex and create usernames to restrict access to certain aspects of the application. Reservation Master Pro is a comprehensive program that enables you to

easily manage your business in hotels, motels, guest houses, lodges, inns, bed and breakfast or campgrounds. The application works as a digital front-end assistant, allowing you to book reservations
