contains the following files: RKPCALLSTATE.H RKPCALLSTATE.H RKPRXF7.H RKPRXF7.H RKPRXF7.H RKPRXF7.H RKPRXF7.H RKPRXF7.H RKPRXF7.H RKPRXF7.H b7e8fdf5c8

Resolve For RKProc-Fam And Stinx

Troj/RKProc-Fam, Troj/Stinx-E, and Troj/Stinx-F are all classified as "Troj/RKProc-Fam" infections. This entry refers to viruses that are among those distributed by the Spyware Removal Guide as part of the Web site RESOLVE: The Spyware Removal Guide is a free, non-commercial service provided by Sophos. All updates or modifications to this entry must be approved by Sophos. This entry expires upon the expiry of this document. Sophos (Sophos Software Limited, 20 Cranfield Road, Cranfield, Bedford, England MK46 1YK) provides the Web site (for information on its Security Products. RESOLVE is the name for a set of small, downloadable Sophos utilities designed to remove and undo the changes made by certain viruses, Trojans and worms. It is designed to terminate any virus processes and reset any registry keys that the virus changed. Existing infections can be cleaned up quickly and easily, both on individual workstations and over networks with large numbers of computers. Sophos will provide updates to this entry when new information regarding these viruses becomes available. Updates to this entry may be published through Microsoft Security Bulletins (MSBs), Virus Bulletin postings, or directly from Sophos. Updates to this entry will be posted on RESOLVE. Sophos believes that this is the most accurate description for this family of viruses and has checked the contents of this file against Sophos viruses as they appear on the Internet and modified it accordingly. Microsoft generally does not approve the use of the names "Trojan," "Ransomware," "Backdoor," "Bot," or "Malware" or their derivatives in connection with any application or item. Microsoft also generally requests that the use of the name "Ransomware" be specifically used to refer to the family of viruses, particularly the Dridex/Citadel group. Resolve for Troj/RKProc-Fam Related Software: RESOLVE is the name for a set of small, downloadable Sophos utilities designed to remove and undo the changes made by certain viruses, Trojans and worms. They terminate any virus processes and reset any

What's New in the?

Troj/RKProc-Fam is a family of kernel-mode driver rootkits. Members of Troj/RKProc-Fam are capable of hiding information about certain running processes, providing stealthing by patching the kernel service descriptor table. Troj/RKProc-Fam drivers run in kernel mode. Troj/RKProc-Fam is designed to hide information about running processes from external analysis tools such as Process Explorer. To see the processes controlled by a Troj/RKProc-Fam driver, show the settings and hide the rootkit tab in the process list. Once the Troj/RKProc-Fam driver has hidden information about a process it can be terminated. List of processes controlled by Troj/RKProc-Fam can be found on the RKPRFCLI command line. The processes can be listed using the following: C:\RKPRFCLI.exe -l | grep -i ntoskrnl.exe To force the process to terminate: C:\RKPRFCLI.exe -t ntoskrnl.exe To enable the USB devices to run: C:\RKPRFCLI.exe -u To allow the USB drivers to be disassembled: C:\RKPRFCLI.exe -d If the USB drivers are disassembled then all USB routines will be placed on a list: C:\RKPRFCLI.exe -d usb.com To allow the USB drivers to be disassembled without removing the usb.com file: C:\RKPRFCLI.exe -d -n usb.com To allow the USB drivers to be disassembled without removing the usb.com file, but without displaying the USB functions on the command line: C:\RKPRFCLI.exe -d -n usb.com > ntoskrnl.debug.log To allow the USB drivers to be disassembled without removing the usb.com file and display the USB functions on the command line: C:\RKPRFCLI.exe -d -n usb.com 2> ntoskrnl.debug.log To search the file for the UNKNOWN string: C:\RKPRFCLI.exe -s UNKNOWN To search the file for the string UNKNOWN OR UNKNOWN
