Very good game, lots of things to do, plenty of new things to master, and plenty of weapons, armour and locations to discover.78.85% 84GamesMaster Gameplay Advent Rising: ...customisable up to the nth degree and largely enjoyable....79 Hot Pursuit Gameplay Advent Rising: Advent is one of the first games to attempt an MMO strategy game which comes with a host of problems, but you can alleviate them all by not paying attention to the game.92.00% 94GamesIndustry.bizGameplay Advent Rising: This might be one of the best of the series.79 Game InformerGameplay Advent Rising: One of the best turn based strategy games.It's addicting, and I love how complex it is. I definitely look forward to what the development team brings in the future.78 GameSpotGameplay Advent Rising: There's a lot to love about Advent Rising; from the deeper strategic gameplay to the phenomenal array of customization. From your first hour to your last, there's an abundance of features to sink your teeth into.74 PolygonGameplay Advent Rising: From combat to crafting, Advent Rising feels like a great MMO experience that offers so much it doesn't have time to rest. As fun as it is, Advent Rising seems to tread the well worn path of many other turn-based strategy games.70 Game RevolutionGameplay Advent Rising: Advent Rising is very clearly a learning experience. It will teach you some very valuable lessons. But if you're looking for a pure arcade shooter experience, you won't find one here.71 PCGAMERPLAYGROUND Gameplay Advent Rising: The game was set up to be challenging and fair, and although it's not for everyone, I found myself able to really enjoy the game. Although I found the first game too long, I believe the sequel can be that much better, thanks to all the improvements and balancing made in it.72 NeoseekerGameplay Advent Rising: Advent Rising is probably the most well-rounded "strategy" game that doesn't require any strategy at all. Just go out there and massacre everyone.77 IGNGameplay Advent Rising: This is a solid turn-based strategy game with some big ideas. A nice element to the gameplay is that the player can customize their class to suit their play-style.74 GameSpy Gameplay Advent Rising: While I didn't like the game as much as the first one, the voice acting is hilarious in the cutscenes

**(U.S. Warship, Typhoon, UP) In the continuation of the battle between Nathan's fleet and Tory's fleet that started**

**in today's round, the humanitarian convoy just pulled up to the combat area between 3:45 to 4pm. The Convoy was protected by a group of Tier 1 Warships, with support of Zakuul Nuclear Missiles and Heavy Self-Propelled Artillery. It was dueling with Tory's fleet of 3 carriers. The convoy approached the combat area with heavy speed, and Tory's fleet had been spotted before, but the convoy was approaching at just a higher speed than that. Another USS Avenger rolled up to the convoy, and then about 4:10pm, it fired a massive volley of missiles at the convoy. The strike was so huge and powerful that the convoy began to shake immediately. The convoy was heavily damaged and lost only one ship, but a massive amount of damage were put on the USS Avenger, although it kept fighting against the convoy. So Tory decided to retreat from the combat area. An USS Crisis of Integrity rolled up to the convoy as well and fired a volley of Missiles at the convoy, although it didn't cause any damage. Nathan sent a group of Assault ships to the conflict area, and tasked them to eliminate Tory's fleet that remained in the area. Tory's remaining fleet in the area was sadly defeated by the Assault Ships. About 4:35pm, a Typhoon rolled into the combat area and fired a full volley of Missiles at Tory, and then suddenly, 2 upgraded Heavy Tank Destroyers and an upgraded Heavy Bomber Squadron rolled up, and immediately began to fire missiles at the Typhoon, but their attack was intercepted by the HMS Emperor, who fired a volley of Missiles at the Typhoon. The battle was extremely heavy and life-threatening, and lasted for about 10 minutes. However Nathan was able to dispatch the Heavy Bomber Squadron just after the Typhoon had been knocked out. General result At the end of the battle, the Typhoon was severely damaged and knocked out of the fight, and one of the Heavy Tank Destroyers was damaged as well. Shaul's fleet was able to knock out the Heavy Bomber Squadrons, and the remaining 2 Heavy Tank Destroyers as well. However, the Heavy Tank Destroyers are taughtt to retreat, and they could be recall. The Typhoon is considered dead, although**

Developers Commentary: By creating the game we were inspired by the Japanese Sword Art Online franchise. With it we wanted to tell a story set in a vibrant world filled with friendly characters, but with a dark theme. From the start we knew we wanted to make a story that would deal with themes of classism and racism, and that is something that was never represented in the Sword Art Online series. We had this idea of trying to change this, creating a story for a fish world that had these elements of racism and classism. If you think about this the world is without oxygen, but it has lots of fish. This is the truth of the matter, but in our game what happened was, in fact, a**

manipulation by the people who live on the surface of the planet, because they created a bubble of oxygen, to be used for their own benefit. So basically it's a crime against the whole fish planet. Both of the main characters had mixed backgrounds. From the start we decided that some characters would represent more diverse styles of people. With Cubus this was
