still, i began to feel part of the culture, and i think that this is the most important part of my life. at first, some of my best friends were white. i was popular, and had lots of friends. it wasn't long before i began to feel comfortable. i accepted their parents' values. in rocky mount, the african-american parents were generally not very involved in their children's lives, so at the same time i gained a reputation as someone who was doing the right things, the right things my white friends were doing. " a few years earlier, after a long shooting spree at the edge of the park on carolina, rocky mount police had cornered a teenager under the overpass at the intersection of carolina and route 301. he was, in their words, whacked out of his mind, racing around yelling allahu akbar, the paaaaaaateet, so how do you solve a problem like this? for a long time they could make no sense of the boy's incomprehensible babblings. at last they decided that it would be easier to just kill him than

to take him to the state mental hospital, where he would have to be sedated; besides, they figured, even if they took him away, the streets would still be awash in his blood and brains. in the fall of 1996, ernestine's body was found by a young mother trying to run the interstate 421 overpass just outside rocky mount, an overpass at which only one lane had been finished. the body, still clutching the lock to her crack pipe, lay in the dirt on the steep embankment, as if ernestine had stepped off the overpass on a dare. the news of ernestine's death leaked out over the next few days like a slow-moving flood, just as one item builds upon the last. but it was only after a tip on the radio that the discovery was made public. then the news could not be ignored. the rocky mount police department had been asked to identify the victim after a lab technician from the medical examiner's office, who was working with the fbi on the kidnap-slayings in rocky mount, found ernestine's name on a list of thirteen women whose husbands had been kidnapped in late 1996, all of them taken off the streets by the same gang that had snatched tommy mcghee. there was also a fingerprint card left by the kidnappers when they'd taken ernestine. the fingerprint card belonged to a woman who'd been arrested on a drug charge in the mid-90s. only the names and photographs of her co-defendants were available for the crime laboratory to match against the print.
