DayOfWeek Crack + Free License Key Download [Updated] 2022

This is a very simple app designed to help you determine the day of the week any given date is falling on. You can enter a date directly and it will display the day of the week for that date. For example, "Oh dear, it's a Thursday! The office is closed on Thursdays - what am I going to do?!" If you are unsure of what day of the week a certain event takes place, this will tell you the truth without all the fuss. Getting Started: This application was created to be as easy to use as possible. You can enter any date in the following format: d/m/y ("01/25/2014"), or "dd/mm/yyyy" (eg. "1/1/2014"). If you don't know what format your date is in, just click "I don't know" and it will default to the format you specified. You can also enter "dd/mm/yyyy" if you prefer to enter the date as a month/day/year format. Features: - Shows your date in the format you entered it in - It can be entered in any format. - Works for any of the following, with the exception of leap years: 1606/02/12, 01/01/2014, 20/01/2014 How To Use This App: - Simply enter the date you want to find out the day of the week for. If you are unsure about what day of the week a certain date is, then just enter "I don't know". This will always display the truth, no matter how many times you do it. - You can enter it in the format of your choosing (ie. the first method) or the default format which works for the following dates (i.e. the second method): 1606/02/12, 01/01/2014, 20/01/2014 - It will show you what day of the week the date is, without any excess information. - If you know the day of the week you want, but are unsure what date it is, you can enter that in too. - You can view the calendar directly, or read the message about the day of the week. *Warning: Double-dipping; We are a member of the Windows Malware CleanUp! program.
