Category:AutocadFord has signed a deal to sell the Blue Oval's new F-150 offroad truck to India for \$50,000. "The Indian government has unveiled the long-awaited policy to promote the sale and usage of indigenous auto components," said Seemant Ahuja, vice president and general manager of Ford India. "Ford will support the manufacturing of components for the F-150 in India, as this will enable the F-150 to be sold at the price that is appropriate for the Indian market." The sale of the pickup to the Indian market will help boost F-150 sales in India, where it is currently sold by two Tata-owned companies, Tata Motors and Mahindra & Mahindra. Ford will use its joint venture with Tata, Tata Motors Ltd., to manufacture the F-150's transmission and powertrain components in Chennai, India. Ford and Mahindra, owner of Mahindra & Mahindra, plan to produce F-150 cab and chassis in Chennai. The Blue Oval has had trouble gaining ground in India, where it competes with the likes of Tata's Ram truck and Mahindra's Scorpio. The company sold 2,133 F-Series trucks in India last year, a 2.5 percent increase from 2012. Sales also are picking up in the first half of 2013

What's New in the AutoCAD?

Share your designs with others, too. Share and easily invite collaborators, draw on, and annotate your designs with someone else's comments. Create digital workspaces. Create your own workspace, store files, and share them with others. Create a customizable, single-click parametric layout tool that is perfect for drafting designs in the most common CAD systems such as STEP, IGES, DXF, 3DS, and DWG. Add and edit text and shapes easily with the new Text Builder tool and Shape Builder tool. Collaborate and communicate with your CAD team quickly. Share your workspaces with others on the web, collaborate on projects, and work together on the same drawing file all from your desktop or mobile device. Troubleshooting tips: Drafting is intuitive and easy with the new 2D/3D navigation tools. AutoCAD 2023 provides a new toolset that includes complete parametric drafting tools. New 2D/3D navigation features in AutoCAD provide a completely redesigned user interface for navigating around, across, and inside a drawing. We've also made it easy to find your way around. The new 2D/3D navigation tools now show a compass to help you navigate. What's new in the Vector Graphics toolset: Create topology—and instantly use it. The new Vector Graphics toolset provides tools for topology and labeling. Create basic geometric shapes and show them with different color gradients. Create basic geometric shapes with the new Shape Builder tool. Create complex 3D shapes and render them in 3D. Easily add a 3D view to your drawing by selecting the 3D View camera. Simplify your 2D design projects. With one click, quickly move and resize objects and create guides with new Snap to options. Make your 3D drawings more intuitive with the new 3D navigation tools. Easily navigate your 3D drawing by using a compass. Create your own custom presets for adjusting colors and styles, and easily share them with others. What's new in the Menus and command line toolset: Explore the command line interface for AutoCAD for the first time.
