QQ Games-Reviews ELDEN RING game Reviewed by Huan Ahoi on I think I'm already better than a human. It's all about having a great passion towards something. Once I realized that, at that time I was trying to make myself be stronger and stronger. I think it's better to have a goal to aim for rather than wanting to be a human. It doesn't matter if you're a warrior or a mage. It's all about having a great passion towards something. Once I realized that, at that time I was trying to make myself be stronger and stronger. I think it's better to have a goal to aim for rather than wanting to be a human. It doesn't matter if you're a warrior or a mage. So, it's clear that I'm already better than a human. What? We have achieved the status of being an Elden Lord. It's clear that we will take a wise decision and refuse to let our pride exceed the limits. But there are two kinds of pride in life. The most important of them is the pride towards our family and close friends. The pride towards other people brings us an urge to be better than others. I must admit that I have such a kind of pride. I have been always trying to be stronger and stronger until I reached this point. It's hard to overcome this kind of pride. You must remember that if you become worse than others, you will always be the same. You know, sometimes our pride gets in the way of our lives and we do something without thinking too much. However, the pride for ourselves is much worse than others'. So we will make a decision that all of us will become strong. We must accept that we are not in the same position as others. We should be proud of being an Elden Lord. We are the best of people and there is no one who is more worthy of being an Elden Lord than us. We should try to get out of this pride and work very hard. We must work hard from now on to improve. Elden Ring game: Come on, let's go to the lands between. I think we will get along with each other very well here bff6bb2d33
